- Very Small and Compact
- Electronic Accuracy with No Moving Parts
- No Measurable Vacuum Restriction
- Rechargeable Battery Power for Portable Units
- Permanently Installed power Supply for Rigid Mounting
- Easy to Use and Understand

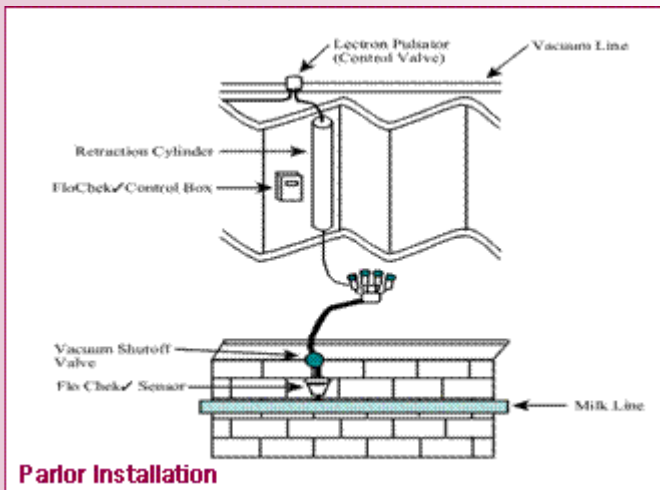

Picture is shown with Stanchion Barn Accessory Kit.

The FloChek✓ Stanchion Barn Milk Meter is light-weight and easy to carry. The meter runs on rechargeable batteries with no electrical connections needed in the barn. The meter provides an End-of-Milk signal and works with any milking machine.

Stanchion Barn Installation

Parlor Installation

The FloChek✓ Parlor Milk Meter provides a digital readout along with an End-of-Milk Signal. The meter can be calibrated and shows the flow rate per minute. The meter also has a Milking Total Selection Key. Weight can be shown in either kilograms or pounds. This meter can be interfaced with takeoffs.
